HARMONISATION
OF THE ENERGETIC FIELDS OF THE BEING

Session : Nn individual treatment lasting approximately 1 hour, during which you lie comfortably and serenely in a calm, welcoming environment, free from any disturbance. Before the treatment, you can set a clear intention to begin the process of transformation and bring its creative power into play.

During the treatment, you imagine that you are being gently and peacefully immersed in a "bath" sparkling with white light... you simply welcome what is, in the joy of living this new experience ☺

Each treatment is absolutely unique, a true communion with Life. This universal symphony animates every cell in your body, subtly infusing your being with crystalline waves that resonate and "play" through and around you.

When you *wake up*, you can share your experiences of the session and exchange information instantly.

The origin of this crystalline light treatment: since 2009, following an NDE (near-death experience or altered state of consciousness), I've been welcoming a new Presence in Life, which has led me to feel and commune with particularly intense, subtle, crystalline energy frequencies. I experienced this care in a state of semi-awakening, and it continues to evolve thanks to the expansions of consciousness and solar inspirations that I experience in my Heart. Since 2017, I've been transmitting these treatments in a state of wonder at the immensity of the Intelligence of Life that unites us all.

Healing process: the physical body and the subtle bodies (which surround every living being) will receive new sparks of light in the form of frequency waves, like new energetic encodings, in order to transmute old cellular memories and activate a new radiation potential, connected to the "Harmonics" of the universal field:

- ⇒ Decrystallisation
- ⇒ Cellular restructuring
- ⇒ Transmutation and regeneration of the organism
- ⇒ "Surgery" of Light
- ⇒ Raising the vibratory level of your being
- ⇒ New Presence in Life.

How does it work? In my Presence and through what I experience in my heart and through my hands (fusion with particularly powerful and luminous vibratory intensities), these emanated waves and frequencies work on the fundamental attunement within each person.

Light: An atom (a miniature solar system) is the origin of light, it is the source of all particles, these particles are emissions from atoms, and atoms are also the origin of what we are. Light is made up of luminescent particles interacting with matter.

Benefits: each "Bain de Lumière" treatment emits a variety of rays and resonances that each person will welcome and experience in their own unique way. Thanks to the harmonising of the physical and subtle bodies, vital energy circulates and the body opens up to a greater overall well-being, to greater gentleness, to expansions of consciousness, to the healing of certain physical pains and psychic disorders, to visions, etc. Each individual is guided, carried towards the essential...

Email for appointments: thesmilingpower@gmail.com

(for treatments at a distance, please send a photo of your face and body beforehand). A treatment lasts approximately 1 hour.

Price: 70 euros.
